single-use ophthalmic innovations

our latest

big idea?

smaller thinking for small-incision surgery

by **thinking small** we have
developed a **big advance**
in single-use I/A handpiece design

a new single-use, 2.2mm metal tip I/A Handpiece

Combining a new ergonomic handle the new handpiece for 2.2mm incisions is designed to provide the same high level of performance as the standard handpieces. Consistency of design across the two sizes ensures confidence and convenience between techniques.
